The meeting was called to order at 6:07 p.m. by Paul Puznowski after the Pledge of Allegiance.

Under discussion was the AT & T cell tower proposed for behind the fire house. Before anything can be done, AT&T must show that there are no existing towers that can be shared. Concerns about the tower are:

- What is the height?
- How far away will it be from the fire house?
- Is there a possibility that it will fall on the fire house during a storm?
- How will it be marked since the helicopter lands in that area. Will the tower be in the way?
- Will it be under the height for flashing lights requirement? Do not want flashing lights in this area.

The plans provided by AT&T were given to each Planning Board member in attendance. The next step is for AT&T to come before the Board to show no current towers can be shared and to present a detailed plan.

The demographic analysis for zip code 13329 which included Towns of Manheim, Salisbury, and Oppenheim as well as the Village of Dolgeville was reviewed in conjunction with the Planning Board Survey. Questions yet to be answered concerning the survey are:

- Will need 900 to 1600 copies. Where to have it copied since there is no money in the budget for this?
- How to deliver – general mailing or hand deliver?
- Will a self-addressed envelope be included?
- Or are respondents to drop off at the Village Office?

Return due date will be determined by mail date. Paul will check with the Village Board to advise on how these issues will be addressed.

Once surveys are returned, community forums will be set up to analyze the data section by section. More than one group may be required. A possibility would be for one group to meet at the Masonic Temple and one group to meet at the fire house.

Jenny motioned to adjourn the meeting at 6:58 p.m. Seconded by Christine. Ayes all.
