97 VAN BUREN ST.
DOLGEVILLE, N.Y. 13329

ATTN: DOLGEVILLE VILLAGE BOARD

RE: MONTHLY REPORT SEPTEMBER 16, 2021 to OCTOBER 14, 2021

1. PERMIT COMPLIANCE FOR AUGUST 2021

The treatment plant produced acceptable effluent quality and met SPDES permit requirements for the month of August.

2. MAINTENANCE

- Normal Preventive Maintenance

3. WORKER'S COMPENSATION ALLIANCE

A representative of Comp Alliance visited on 10/1/2021 to review safety and PESH compliance at the treatment plant. Several items identified during the meeting include plant lighting and annual training. Required employee annual training topics (workplace violence, sexual discrimination, right-to-know, blood borne pathogens, and hazardous materials handling) can be covered in one half-day session for all WWTP, Water and DPW employees. Comp Alliance will send a complete list of the items identified during the plant visit and also contact Tammy to schedule annual employee training.

4. HAZARDOUS WASTE DISPOSAL

General cleanup at the plant continues. There are stored materials (drummed waste, unlabeled waste, unused chemicals) that need to be disposed of. I am waiting on quotes for transport/disposal of the hazardous type materials.

5. INCREASED PUBLIC AWARENESS/EDUCATION (Water and Wastewater topics)
