Re: December 2017 Monthly Report

---

**Current Work:**

- Though winter has not officially begun it is making its presence known
  - We have plowed 4 out of 5 days the week 12/11-12/15
- Installed Christmas lights on Main St
- Finished leaf pick up with the last few good days prior to snow
- Extensive sewer jetting was required on Elm St to keep sewer main flowing
- Prepped automotive lift in shop for annual inspection
- Rebuilt the sludge truck
  - Hopefully extending its service life by a few years
- Loader replacement should still be considered

Respectfully Submitted
