Re: February 2018 Monthly Report

Current Work:

- Plowing and snow removal bulk of time spent this month
- Extensive time has been spent trying to keep the aging fleet of snow equipment working
- Repaired water leaks at 18 and 13 Ransom St
- Sewer main issues on Elm St still trying to determine root cause of this problem
- Assist sewer plant with "plug" in digester
- **Loader replacement should still be considered**

Respectfully Submitted
